PEOPLE  01

PROCESS  02

TECHNOLOGY  03

We work in partnership with commercial and governmental organisations to deliver Life Cycle Security Solutions tailored to your company's needs.

Our team of consultants, technology integrators and security experts have global and cross-sector experience. We have created and managed some of the world's best security enabled companies, events and operations.

## Our Approach

Our approach is simple.

We work closely with you and your teams to understand your immediate security needs including threats and challenges, as well as help you look to the future.

We design state-of-the-art security infrastructure supported by highly qualified security personnel to ensure the long-term sustainability of your company.

## About Transguard

Our mission is to be our customers' trusted partner, delivering total business support solutions to enable our customers to focus on their core business.

We were born and raised in Dubai and since 2001 we have been growing our business support services company into the UAE's most trusted outsourcing partner, supplying some of our country's most prestigious brands.

Like the UAE itself we set our sights on growth early on, knowing we had the potential to really make a difference to the lives of the people we work with, both customers and employees, by helping them succeed.

Our customers want to focus on their core business, what they're really good at. What we're really good at is focusing on our customers' non-core business.
